

Title options for author consideration

The author-approved submission title remains unchanged: **Spatiotemporal associations between coastal birds and Pacific herring spawning in British Columbia.**

1. Do coastal birds track Pacific herring spawning? Evidence from complete eBird checklists in British Columbia
2. Heterogeneous coastal bird associations with Pacific herring spawning across British Columbia
3. Pacific herring spawning leaves a heterogeneous and partly non-specific signature in coastal bird checklists

These are optional editorial alternatives only; none has been substituted into the manuscript or submission metadata.
